

SelectShans - Security & Threat Intelligence Report

Target User: kakarlapavanshanmukh@gmail.com | Report Date: 2026-09-21 21:36:53 UTC | Classification: RESTRICTED / SOC AUDIT

1. Executive Threat Summary & KPIs

Metric Indicator	Current Value	Security Assessment
System Anomaly Score	15%	Threat Status: LOW
Whitelisted Processes Protected	7 Executables	Active Monitoring Layer
Unresolved Critical Alerts	0 Incidents	Normal
Host Detector Agent	ACTIVE STREAM	Encrypted Tunnel Operational

2. Threat Telemetry Analytics

3. FolderGuard Telemetry Event Log

Event Category	Occurrences	Last Detected Timestamp
mass_rename	1	2026-09-21 21:36:52
file_entropy_spike	3	2026-09-21 21:36:52
unauthorized_directory_access	2	2026-09-21 21:36:52

5. Recommended Security Posture Actions

- 1. Ensure FolderGuard host detector agent is continuously running in background service mode.
- 2. Review whitelisted executables in Settings to prevent malicious process spoofing.
- 3. Maintain updated offline backups of critical documents and database snapshots.
- 4. Enforce Multi-Factor Authentication (MFA) for all administrative login sessions.
